IGSA Archdale Debating 2026

The Association of Heads of Independent Girls' Schools NSW trading as Independent Girls' School Association (**IGSA**) and its members' schools organises many activities such as IGSA Archdale Debating during the course of a year. Students participating in these activities take part in practise and in competitions.

In 2023, IGSA may administer and convene IGSA Archdale Debating both remotely and at members' schools in which many students, parents, teachers, volunteers, adjudicators, officials and spectators participate in the Competition.

While IGSA and its members' schools take measures to make the activities as safe as reasonably possible for participants, there is a risk that students can be injured and suffer loss (including financial loss) and damage as a result of their participation in these activities, whether at practice or in actual events.

Such injury can occur while the student is engaging in or watching a non-sporting activity, or travelling to and from the event. The injury may result from a student's actions, the actions of others, the state of the premises or equipment failure (e.g. a collapsed stage during a debating competition).

On some occasions, an injury can be serious (such as torn ligaments, dislocations, back injuries, concussion or broken bones). In very rare cases an injury can be life threatening or result in permanent disability.

Students could also suffer loss as a result of their personal property being lost, stolen, damaged or destroyed.

 - (4) The Tally Keeper
- must all be informed of the change.

5 Scoring of the Preliminary Rounds & Determination of Finals

Storage of Results

- 5.01 The tally keeper shall maintain a secure record of the competition point score or tally (as described below) of each school in each division.

Competition Points

- 5.02 In a debate in the preliminary rounds of the annual competition:
- (1) A team which wins a debate shall receive 3 competition points
 - (2) A team which loses a debate shall receive 1 competition point, except if the team lost by forfeit; and
 - (3) A team which forfeits a debate shall receive 0 competition points.
- 5.03 Where a team wins a debate, the margin by which they won the debate shall be recorded on the tally and aggregated with their other winning margins for the purpose of 5.13.
- 5.04 Where a team is not scheduled to debate in a preliminary round because they have a bye, the 'bye' should be indicated on the tally in the record for that week.
- 5.05 If the result of a debate in the preliminary rounds of the annual competition is deemed to be a non-result then:
- (1) Both teams shall receive 2 competition points; or
 - (2) If both teams forfeited the debate or were unable to debate, then both teams shall receive 0 competition points.

Publication of Results

- 5.06 The tally keeper shall make the tallies available in tabular form to all members' schools:
- (1) Preferably, after the completion of every round; but
 - (2) At least after the completion of every third round; and
 - (3) After the completion of the second last preliminary round; and
 - (4) At the completion of the preliminary rounds.
- 5.07 The tally keeper shall transmit a comprehensive set of results in tabular form to all members' school no later than 4 working days after the conclusion of the annual competition.

Qualification of Teams for the Finals

- 5.08 At the conclusion of the preliminary rounds of the annual competition, the highest scoring eight teams in each division qualify for playoffs.
- 5.09 In the event that teams in one division place equal 8th, tie breaker debates shall be held to determine which teams shall progress to the quarter finals. Following the tie breaker debates, there can be only eight teams remaining to qualify for the quarter finals. Where it is necessary to limit the number of teams in the tie breaker debates in order to produce a top eight teams cleanly, teams otherwise equally ranked are to be distinguished as per 5.13.
- 5.10 Once the top eight teams have been determined as above, there are three playoffs; called quarter final, semi final and grand final.
- 5.11 Each playoff is an elimination round, only the winner progresses to the next round.
- 5.12 The draw for playoffs must follow this method for each division:

Quarter Final	Team rank	
Debate A	1	8
Debate B	2	7
Debate C	3	6
Debate D	4	5
Semi Final		
Debate E	Winner A	Winner D
Debate F	Winner B	Winner C
Grand Final	Winner E	Winner F

- 5.13 In formulating the play offs draw it may be necessary to distinguish between teams that have an equal number of competition points following the preliminary round to;
- (1) Ensure the correct number of teams are participating in the tie breaker (see 5.08)
 - (2) Rank the top eight teams relative to one another for the purpose of arranging the finals draw as described in 5.11.

Such a distinction shall be made on the basis of which team has the higher total margin score aggregated from the preliminary rounds and has therefore won their debates by the larger margins, considered as a whole.

- 5.14 Where it is not possible to distinguish between teams as per 5.13 because two teams have the same aggregated margin score from their winning debates, the rank of their school in the ongoing IGSA Archdale Shield tally for that year's annual competition should be used to distinguish the teams.

IGSA Archdale Shield

- 5.15 The IGSA Archdale Shield is awarded to:
- (1) The members' school with the highest Shield tally; or
 - (2) If two or more schools have the highest shield tally, then to the members' school with the highest number of competition points in the senior division; or
 - (3) If two or more schools have the highest Shield tally and an equal number of competition points in the senior division, then to the members' school with the highest number of competition points in the Year 10 Division and so on.
- 5.16 The Shield tally is calculated by tallying all competition points achieved by a members' school in each division in the preliminary rounds, as well as an additional 3 points for a win in the grand final and 1 point for a loss in the grand final.

Most Improved

- 5.17 The Most Improved shield is awarded to:
- (1) The members' school who has jumped the most places within the current competition season e.g. from 22nd placed to 15th place
 - (2) If two or more schools have jumped the same number of places, then to the members' school with the highest number of competition points in the senior division; or
 - (3) If two or more schools have jumped the same number of places on the tally and have an equal number of competition points in the senior division, then to the members' school with the highest number of competition points in the Year 10 Division and so on.

6 Conduct of the Finals Rounds

Venues

- 6.01 The schools hosting the final rounds shall be determined;
- (1) In the case of the tie-breakers, quarter finals and semi finals, by the Convener and the IGSA Executive Officer in consultation with school co-ordinators, having regard to:
 - (a) The need to balance demands placed on the resources of each members' school
 - (b) The desirability of all teams of a school being located at the same venue; and
 - (c) The additional cost of under utilising adjudicators.
 - (2) In the case of the grand final:
 - (a) By the members' school which won the IGSA Archdale Shield in the previous annual competition; or

- (b) If that members' school is unable to accommodate the likely numbers attending the grand final, then as determined by the Convener and the IGSA Executive Officer in consultation with School Co-ordinators.

7 Topics to be Debated Through the Competition

Principles

- 7.01 The topics debated in the annual competition should seek to achieve the following purposes:
- (1) To educate debaters in the range of rhetorical techniques which are available to them

Topics Formulation

- 7.03 Each member school is required to supply ten (10) suggested topics to the Chief Adjudicator before the annual pre-season meeting. While school coordinators are encouraged to seek out suggestions from their coaching staff, it is their responsibility to advise on the age appropriateness of the subject matter of suggested topics.
- 7.04 The discretion and responsibility for the wording and form of topics set in any given week lies jointly with the Convener and Chief Adjudicator.

Access to Topics

- 7.05 Only the Convener and Chief Adjudicator shall have knowledge of topics prior to their distribution.
- 7.06 If a School Co-ordinator has reason to believe that the secrecy of a topic has been in any way compromised, the Convener should be contacted immediately.

Topic Areas

- 7.07 The Convener shall distribute a list of topic areas that indicate a theme or area of subject matter for the topics in each week of the annual competition.
- 7.08 The topic area is only intended to assist the debaters in the accumulation of matter prior to the formal preparation period. The listed topic area should not change the way debaters interpret a topic or prepare their case for the topic.
- 7.09 Topic Areas will be distributed to debaters by their School Co-ordinators.

Distribution of Topics to Member Schools

- 7.10 Topics shall be distributed by either the Convener or the Chief Adjudicator by e-mail however:
- (1) The topics will only be sent to the School Co-ordinator hosting debates in that round; and
 - (2) The email will not be sent more than 24 hours before the debate. Usually, the topics will be distributed via email on the morning of the debate.

Replacement Topics

- 7.11 If the Convener is of the opinion that the secrecy of any topic(s) has been compromised, they may, at their discretion:
- (1) Select a reasonable topic; and / or
 - (2) Recommend that disciplinary action be taken under section 14 of this manual.

8 Adjudicators

Introductory

- 8.01 The Chief Adjudicator shall be responsible for selecting the adjudicators engaged throughout the competition.

- 8.04 The adjudicator may also give the debaters brief additional advice and feedback at the conclusion of the formal adjudication, if she / he thinks it appropriate in the circumstances.
- 8.05 The purpose of the formal adjudication is:
- (1) To explain the outcome of a particular debate
 - (2) To assist debaters in understanding how developments in their own debating may lead them to win debates in the future
 - (3) To educate the audience as to the criteria used for determining the outcome of a debate, and how these were satisfied in the instant case.
- 8.06 In the case of a decision given by a panel of three adjudicators, the winning team should be announced, along with whether that adjudication was a unanimous or split decision by the adjudicators.
- 8.07 An adjudicator shall complete an Adjudication Sheet that provides a brief summary of the comments made to the audience and an assessment of each team's performance.
- 8.08 The adjudicator's comments should be constructive, helpful and encouraging.

- 8.11 Adjudicators shall, at all times, act fairly and professionally, without pre-judging the speakers, school, arguments or case line involved in a debate.

- 8.12 In determining the performance of a debater relative to others in a debate, the adjudicator should consider the matter, manner and method of each speaker and how each of those aspects impacts upon the persuasiveness of the speech.
- 8.13 Adjudicators should refer to the 'Guidelines for Scoring Debates' in determining the score to be assigned to each debater (see Part VI).
- 8.14 In no circumstances shall an adjudicator disclose the score assigned to a debater or to a team.

 - (3) The name and position of the person completing the feedback

Disagreement with the adjudicator's decision should be addressed by the feedback procedures outlined at 8.16.

 - (5) Students are individually informed of the results as soon as possible following the conclusion of the selection trials.
- 9.08 The decision of the selection panel will be final.

Introductory

- 14.01 For the purposes of this section, the rules governing the competition include the Code of Conduct in Section 15 of this manual.

Scope of Disciplinary Powers

15 Code of Conduct

Principles

- 15.01 Debating is a valuable activity which encourages the development of many skills, attributes and qualities.
- 15.02 Participating in a debate is more important than winning.
- 15.03 Debaters, spectators, coaches and others must always consider their actions and question whether their behaviour may bring their school, their team or themselves into disrepute.

Conduct

- 15.04 Debaters, spectators and coaches must show respect for the opposing team and the Adjudicator and refrain from conduct that may be offensive, upsetting, damaging, intimidating or insulting.

PART VI: GUIDELINES FOR VIRTUAL DEBATES

Context

In response to the situation that arose in 2020 with COVID-19, restrictions were placed on schools to limit excursions and cocurricular activity. This resulted in the 2020 Archdale debating competition being rescheduled to term 3 and running virtually and much of the 2021 season also operating virtually.

From this experience, we took away some key learnings; and as we slowly return to the face to face environment these guidelines exist for when we need to execute virtual debates.

Virtual Debates To Avoid Forfeits

If schools need to reschedule a debate and are struggling to find a mutually agreeable date and time, virtual debates can be considered, with approval from the Convenor and IGSA.

Virtual Adjudicators

As agreed at the 2023 pre-season meeting, the adjudicators for the preliminary rounds of the competition will be primarily in person however, given the number and quality of the adjudicators required, some may choose to attend virtually. In person adjudicators will be in place of the finals, government restrictions permitting.

The use of virtual adjudicators will be reassessed each season.

Paperwork

Paperwork will remain virtual. Adjudicators will complete an online form for student feedback and results which will be sent to coordinators each week from IGSA.

Prior To The Competition Commencement

Prior to the season commencing it is recommended that you check with your IT department as to whether there will be any issues accessing an externally provided Zoom link (firewall issues).

Topics

Topics will be sent to the host school coordinator each week, unless the round is being held entirely virtually, in which case they will be sent to both school coordinators.

Preparation

Host school Coordinator will facilitate prep like normal for both teams for 45 minutes, after which time they will come together in one room for the debate. The host school should arrange for a laptop for the virtual adjudicator and have the room set-up so that the adjudicator can clearly see and hear the speakers. During these debates the adjudicator will also chair the debate.

I encourage schools to join the Zoom link and be 'waiting in the lobby' prior to the debate start time (while students are in prep) – this ensures that any issues are identified with time to rectify them.

Technical Difficulties

It is recommended that you have spare laptops/iPads/tablets on hand to troubleshoot if necessary – often 'Staff' devices can bypass any issues, but students' devices are locked down.

After 15 minutes, should there continue to be technical difficulties, the team should dial into the Zoom meeting for Audio (not ideal, but better than forfeiting) i.e. they will be heard but not visually seen. If this option fails, revert to the process for when an adjudicator does not show (3.24(3) - Page 8).

Adjudicator Conduct

The Adjudicator will chair all virtual debates. Their camera should be on and they are expected to be taking notes, visually acknowledging speakers as if it were a face to face debate.

The Adjudicator must NOT be visibly conducting the call from their bedroom. IGSA suggests the use of a plain white Zoom Virtual background or other non-distracting virtual background.

Spectators

No parent spectators are permitted to join virtual debates via the link, each school can decide whether they allow parent spectators onsite during virtual debates to watch in the same room and this should be communicated by the host school to the visiting school the week prior.

Risk Mitigation

The risk warning has been updated, commenting on virtual debating. Please ensure that this is shared with the relevant stakeholders and on display at your school.

Each individual school should complete their own risk assessment of this activity.

FAQs – Specific To Virtual Debates

The Zoom link provided is not working

Coordinators are recommended to try the links while their teams are in prep. If you discover that a link is not working, call the adjudicator to troubleshoot, then the Convenor if the issue persists or you cannot make contact with the adjudicator.

The adjudicator is not there / hasn't started the debate

Adjudicators will be asked to arrive onto the call 15 minutes beforehand. If you cannot see them, text/call them first, if no response, text/call the Convenor. If for some reason they do not end up arriving, the coach of the school listed first on the draw should adjudicate the debate.

The adjudicator has dropped out

Call/text the adjudicator to try and work out the issue, they will likely just reconnect. If connection is lost during a speaker's speech, recommence the speech from the last point made. If the adjudicator cannot reconnect, the coach from the school listed first on the draw will adjudicate the debate.

We can't hear the other team

In the first instance, use the chat function and / or hands up function to try and get the attention of the adjudicator. If that fails, coordinator to message / call the adjudicator. If that fails, dial into the Zoom meeting for audio and mention at what point you lost audio so the debate can continue from that point.

It's been 15 minutes and we can't still get the debate to work

After following the steps previously mentioned, if after 15 minutes you are still experiencing difficulties, the teams should call into the Zoom meeting and just proceed as normal without the visual component of the debate.
